Professional Summary

Highly motivated Frontend Developer with 2 years of hands-on experience in building responsive, user-friendly, and visually appealing web applications. Strong background in JavaScript, React, and modern frontend tools. Passionate about Artificial Intelligence, Machine Learning, and integrating smart automation solutions into digital products. Proven ability to work under pressure, collaborate in team settings, and deliver innovative solutions—demonstrated by achieving 2nd place in the Miva University 48-Hour Hackathon.
